

The 2nd Annual Health Research International Conference 2023

(AHR-iCON 2023)

Songkhla, Thailand,
19-20 July 2023

Global Health & Medical Sciences:
Research & Innovation towards
Post-Covid Health Equity

Aims:

- To disseminate the research and innovation findings on global health and medical sciences related to health equity in post-covid periods
- To facilitate the researchers and stakeholders to share the needs and policies of research to improve population health and well-being as the target of SDG
- To identify and coordinate collaborative research across countries to overcome health inequity

The organizing committee is pleased to invite all researchers, physicians, scientists, engineers, pharmacists, and medical technologists to attend and collaborate in research on public health and medical sciences towards health equity. Well-being and good health of population, as the target of Sustainable Development Goals (SDG).

The topics for regular sessions include, but are not limited to the followings:

Topics

- Global Health
- Precision medicine and clinical bioinformatics
- Biomedical Sciences and Biomedical Engineering
- Pharmaceutical, Clinical, Health, and Data Sciences
- Medical and Health Technology and Innovation
